**David Brady, Jr.**, Vice President & **David G. Brady**, Owner & CEO of Brady Construction of Ocala, Inc.

**Jerry Tidwell**, job foreman and finish grader operator for Brady Construction of Ocala, Inc.

Jerry Tidwell, job foreman and finish grader operator for Brady, said, "I've operated a grader for 40 years, and been with Brady for 12 years. Roger Croft of Lengemann came out and spent a day showing me how to use it. He showed me how to set my grades points and finish grade. I think the Topcon GPS+ system is great - I like it. You don't have to worry about grade stakes being in your way. My production has increased by 50%."

"Before we made a decision, we ran the Topcon system and another brand system side-by-side on the same job,"

David Brady explained. "The Topcon system performed better and had better satellite reception. We ran them up against a treeline. The Topcon system worked right up under the trees, the other system stopped working 50 feet away. At 50 feet out, the other system was doing all kinds of crazy things, like digging holes.

"Lengemann's tech support and training have been good - real good. Whenever I call Roger Croft, I can always get a hold of him. If I can't get the problem solved right on the phone, he's usually here on the job in half a day or less."

**Topcon Dealer:**  
Lengemann of Florida  
43316 State Rd 19  
Altoona, FL 32702
