- 2 – 3D-GPS+ Automatic/Komatsu D61
- 1 – 3D-GPS+ 3D Indicate/Komatsu D65

Clayton Gilliland

Clayton Gilliland, construction manager, said, "We subjected ourselves to comprehensive salesmanship by both (another brand) and Topcon over a period of about four months. To be completely frank we didn't just decide based on the hardware or the brand, we decided based on the manufacturer's representative."

Gilliland said, "That's the bottom line, to be frank. We decided on his experience and that he would support us in the field. The representatives of (the other company) are great people, but we felt like the way they were representing the product was not as comprehensive. They didn't give us the comfort level we felt had with Topcon and Rocky Mountain Transit and Laser."

Topcon Dealer:

Rocky Mountain Transit and Laser, Inc.
8389 South Sandy Parkway
Sandy, Utah 84070
800-552-5140
