System Five 3D-GPS+ / Cat D8R

System Five 3D-GPS+ / JD 672B Grader

HiPer+ rover

Millimeter GPS for layout and fine grading

**“What I like about it is you know where you are on the job. You can find your top of slope, find the edge of the road. You know what your grade is, you know where you’ve got to move some material - you know where to put it, you know where to place it. It let’s us work faster.”**

**Joseph Reis – Dozer Operator**

**Topcon Dealer:**
